

Towards new horizons

JMV Elteknik A/S changes company name to JMV Cables A/S

Time flies, and it is already almost 15 years ago since JMV Elteknik unveiled for the first time.

We therefore believe that it is time to present customers and suppliers for our new logo.

JMV Cables A/S replaces therefore the former JMV Elteknik to JMV CABLES A/S, to highlight our core competencies, which is precisely cables of all kinds.

That we call ourselves the JMV Cables A/S is obviously not a coincidence, it is closely intertwined with many international suppliers we work with to find the best cables, to the best market prices.

In addition to the name change, everything will be as the company you know, the many familiar faces will still be on their toes to serve you.

Address, bankers and CVR/VAT-NO. remains of course unchanged.

We hope you will like our new logo and look forward to continued good cooperation.

JMVCABLES A/S
